## THIS IS UNEVALUATED INFORMATION

25X1X

SOURCE

- 1. Construction on certain plants for the Main Administration for the Folygraphic Industry could not be completed during 1952 because necessary materials were lacking. At the end of the year the money which had been allotted for the projects was withdrawn from the Main Administration. The 1953 plan contained no allocations for the same construction despite the fact that the lain Administration has been ordered to finish the plants. Correlation will cost about 10 million DEE, a sum which the Main Administration does not have. At present, noney which has been allotted to complete plants later in the year is being divorted to complete the 1952 projects. It is hoped that by the time 1953 construction must be started, additional funds will be forthcoming to cover the impending shortage.
- 2. The offices of the Main Administration are to be moved soon into those formerly used by the limistry for Lachine Construction in Dorlin-Friedrichshain, Threnbergstrasse.
